## What a Change!

That is what our customers re-  
mark about the appearance of  
our store. New fixtures, new  
Soda Fountain and a general  
improvement in our facility  
for doing business. These  
things all add to our ability to  
serve you quickly and accurate-  
ly. We have also greatly in-  
creased our large stock of  
drugs and can fill your orders  
promptly. Come and see us  
and we will give you the best  
value for your money. Our  
Soda Water is cold and deli-  
cious, made from pure fruit  
juices, sugar and thoroughly  
carbonated water, neatly and  
quickly served.

business town. Proprietor wants to go  
out of business on account of sickness.  
For particulars address P. O. box 351  
June-lm\*

## CHAMPAGNE MAKING.

The Methods That Are Used In Pro-  
ducing the Wine.

It is to the invention of the cham-  
pagne cork that the world owes cham-  
pagne, according to Court Purveyor J.  
Fronm of Frankfurt, Germany.  
This wine is said to have been made  
successfully by the butler of a monas-  
tery near Epluay, in France, in 1643.  
Until the early part of the nineteenth  
century sparkling wines were made  
only in the French province of Cham-  
pagne.

Next to the wine, carbonic acid forms  
the most important part of cham-  
pagne. The picking of the grapes used  
requires great care to prevent discolora-  
tion. The grapes should not contain  
too much acid and coloring matter, but  
considerable sugar.

In order that the grapes should not  
become warm, thereby fermenting pre-  
maturely, picking is done in the early  
morning hours. The grapes are then  
placed in the press at once and the  
juice squeezed out very gently. After  
twelve to twenty-four hours it is run  
into vats, where its impurities are re-  
moved. After the first violent fermen-  
tation is over the young wine is put in  
cool cellars, into barrels of from 125 to  
150 gallons. Toward the end of De-  
cember the young wine is drawn off in  
order to separate it completely from the  
yeast.

The wine is then mixed with wines of  
other years and kinds. It is then  
bottled and the progress of fermenta-  
tion carefully watched, the bottles be-  
ing opened to "disgorge" the albumen,  
yeast and other products of fermenta-  
tion which it is necessary to get rid of.  
It is then sweetened and stored in cel-  
lars to mature for the market.

## An Alarm Clock for 25c.

If you want to get up early and feel  
good all day take a Little Early Riser or  
two at bed time. These famous little  
pills relax the nerves, give quiet rest and  
refreshing sleep, with a gentle move-  
ment of the bowels about breakfast  
time. W. H. Howell, Houston, Texas,  
says, "Early Risers are the best pill  
made for constipation, sick headache,  
biliousness, etc. Sold by Stone & Mer-  
cer."

## One Kind of Sort Answer.

It lacked but five minutes of the time  
for the train to start from the down-  
town station, and the suburbanites  
were hurrying into it when a man in  
the garb of a mechanic sat down by the  
side of a finely dressed passenger in  
one of the seats in the rear car, took  
a paper from his pocket and began to  
read.

"Plenty of empty seats in here yet,  
aren't there?" growled the man in fine  
raiment, moving along grudgingly.

"Yes, sir," pleasantly replied the  
newsman, "but it will be crowded  
pretty soon, and I thought I'd pick out  
a gentleman for a seat while I had a  
chance."

"Humph!" grunted the other man,  
uncertain whether to feel complimented  
or insulted, but realizing the hope-  
lessness of trying to make any fitting  
rejoinder.—Youth's Companion.

## A Matter of Business.

The ladies of the club were closely  
grouped about the speaker of the af-  
ternoon, a remarkably successful woman,  
in whom commercial and literary  
ability were admirably balanced.

"Tell us in a few words how to be  
successful," said one of the ladies in-  
sistently.

"To be successful," said the success-  
ful one, "all we women have to do is  
to make as much of a business of our  
own business as we do of the things that  
are none of our business."

## Interesting to Asthma Sufferers.

Daniel Bante, of Otterville, Ia., writes  
"I have had asthma for three or four  
years and have tried about all the cough  
and asthma cures in the market and  
have received treatment from physicians  
in New York and other cities, but got  
very little benefit until I tried Foley's  
Honey and Tar which gave me imme-  
diate relief. I sincerely recommend it  
to all." For sale by Sturm & Co., Stone  
& Mercer and R. J. Criss.

## PITH AND POINT.

No grown person should ever hate a  
child.

Any man who has money can have  
lithographs printed claiming a big  
show.

The trouble with having a good word  
for everybody is that when you pay a  
compliment it doesn't count.

We hope we are not lacking in sym-  
pathy, but when they tell us that a fat  
woman is "delicate" we laugh.

After a man has been engaged three  
or four weeks he begins to find oppor-  
tunities to take sides in her quarrels.

We don't know what it requires to  
become skillful at repartee, unless it  
is to think as quick as when the baby  
has the crump.

Ever notice how people reach over  
the preserves after the pickles? And  
how they insist on passing pickles in-  
stead of preserves to others?—Atclison  
Globe.

## Stone & Mercer

Ask the readers of this paper to test  
the value of Kodol Dyspepsia Cure.  
Those persons who have used it and  
who have been cured by it, do not hesi-  
tate to recommend it to their friends.

Kodol digests what you eat, cures in-  
digestion, dyspepsia and all stomach  
troubles. Increases strength and en-  
ables the stomach and digestive organs  
to contribute to the blood all of the  
nutrients contained in the food. Kodol  
Dyspepsia Cure is pleasant and palat-  
able.

## Bearing the Expense.

"Does your husband keep any  
horses?"  
"Yes," answered young Mrs. Torkins.  
"He keeps a number of them. But  
other people own them and manage the  
races."—Washington Star.

## YELLOWSTONE PARK.

One Meets With Nature's Surprises  
There at Every Turn.

Probably no area of equal extent  
contains so great a number of natural  
objects capable of arousing wonder,  
enthusiasm and awe as are found  
crowded together in the park. Its  
many scenic features of rostral charm,  
found alongside areas of never ending  
activity, with weird, grotesque sur-  
roundings, surprise one at every turn.

Yellowstone lake, the largest sheet of  
water in America at so high an eleva-  
tion, with its indented shore line and  
140 square miles of surface dotted  
with forested islands, presents to lov-  
ers of nature a series of picturesque  
landscapes unequalled upon any other  
inland waters. The far famed falls  
of the Yellowstone, with their unique  
and marvelous rock setting, and the  
Grand canyon, with its majestic out-  
lines and brilliant coloring, are worthy  
of all the praise bestowed upon them  
and merit a separate descriptive ar-  
ticle. More than a score of waterfalls  
and cascades, some of them of ex-  
quisite grace and beauty, pour the wa-  
ters of mountain torrents and plateau  
lakes from the uplands to the low-  
lands. Many of them well deserve a  
visit, but their fame is obscured by the  
real marvels of the Yellowstone.

Again, the fossil forests, so seldom  
visited, tell a most interesting story of  
a buried plant world, of explosive erup-  
tions of mud volcanoes and the gradual  
piling up of erupted lavas and  
ashes. All these, enticing as they  
seem, appear insignificant when com-  
pared with the hydrothermal phenom-  
ena displayed in geysers, boiling  
springs, hot lakes, solfatara and num-  
berless fumaroles, which have gained  
for the park the appellation of the won-  
derland of America. Unquestionably  
it is this hot water treatment which  
the region has undergone that has de-  
veloped most of the objects of interest  
and made the park famous the world  
over. Even the lake owes much of its  
attractiveness to its hot springs and  
paint pots, and the Grand canyon  
would lack its brilliancy of coloring  
and its sculptured buttressed walls  
but for the long continued action of  
hot as well as cold water.—Arnold  
Hague in Scribner's.

## Worse Every Year.

Plenty of Clarksburg Readers Have the  
Same Experience.

Don't neglect an aching back.  
It will get worse every year.  
Backache is really kidney ache.

To cure the back you must cure the  
kidneys.

If you don't other kidney ills follow—  
Urinary troubles, diabetes, Bright's  
disease.

A Clarksburg citizen tells you how  
the cure is easy.

"R. E. Johnson, miner, of 314 Jackson  
street, says: 'I have never had a strong  
back, something necessary to a man who  
follows my occupation, and of late years  
I have suffered a great deal from attacks  
of pain across the loins, each succeed-  
ing one more severe and prolonged than  
its predecessor. My back has been so  
lame and sore that when I bent it was  
all I could do to straighten, and after I  
contracted a cold it was sure to seat it-  
self in the loins, and misery very feebly  
expresses what I endured. Thinking that  
Doan's Kidney Pills might help, I went  
to Wells & Haymaker's drug store for  
a box, more out of curiosity than ex-  
pecting results. The treatment agree-  
ably surprised me. I never used a med-  
icine which gave such undoubted relief  
as Doan's Kidney Pills. Mrs. Johnson  
can speak just as positively about the  
remedy as I. She used it for symptom-  
s of undoubted kidney complaint and the  
results received proved that for weak or  
overexcited kidneys nothing can equal  
Doan's Kidney Pills.'"

For sale by all dealers. Price 50 cents.  
Foster-Milburn Co., Buffalo, N. Y., sole  
agents for the United States. Remember  
the name—Doan's—and take no substi-  
tute.

## A Queer Custom.

Between the mountains of India and  
Persia is a powerful tribe, among  
whom an extraordinary custom pre-  
vails. Women's rights have appar-  
ently received full recognition, for the  
ladies of the tribe can choose their own  
husbands. All a single woman has to  
do when she wishes to change her  
state is to send a servant to pin a hand-  
kerchief to the hat of a man on whom  
her fancy lights, and he is obliged to  
marry her unless he can show that he  
is too poor to purchase her at the price  
her father requires.

Things which are so heavy on a wo-  
man's conscience they cause it to say:  
"Don't leave an impression on a man's  
mind."

## Is It Up to the Doctor.

A lady wrote us from Winchester, Va.,  
that she had been under a doctor's care  
for four years for dyspepsia, the pain  
appeared to center under the left should-  
er blade, was so severe at times that she  
could neither eat nor sleep. She had  
lost faith in her home doctor and asked  
us to send her sample of Dr. Gunn's Im-  
proved Liver Pills, which had been re-  
commended to her. eW sent her two  
pills, in a few days she sent for a box.  
Now she writes that the pain under her  
shoulder has left her entirely, she en-  
joys her meals and never sleeps less  
than eight hours every night, and this  
has all come about in two weeks, and  
cost her 50 cents, for two boxes of pills.  
Says the doctor charged her \$50.00, and  
that she told him he had better take the  
\$50.00 and invest it all in Dr. Gunn's  
Improved Liver Pills and build up his  
practice. Sold by Druggists for 25 cents  
per box. Any one having dyspepsia,  
bilious spells or sick headache can get  
a speedy cure by the use of these pills.

## DWARF TREES.

The Abnormal Growths That Are  
Produced by the Japanese.

The curious modification of natural  
growth dates far back. We read that  
in 1826 Professor Meylan saw a box,  
one inch square and three inches high,  
in which were growing a fir, a bamboo  
and a tiny plum tree thick with bloss-  
oms.

The Swedish botanist and traveler  
Carl Thunberg in 1807 described a  
number of these abnormal growths and  
told of the pride with which Japanese  
garden experts produced dwarf trees  
for practical purposes as well as those  
weird little midgets which excite our  
wonder. He saw, for instance, orange  
trees six inches high which bore fruit  
the size of a cherry, "and yet sweet  
and palatable."

The secret of their system is based  
upon such well known principles as  
the retardation of the flow of sap, the  
selection of the smallest seeds, gather-  
ed from the smallest trees; a minimum  
supply of water and the nipping out of  
leaders and the checking of taproots  
and of all vigorous shoots. They take  
for their purpose trees which retain vi-  
tality under most adverse conditions.  
The Chinese are their sole rivals in  
this eccentric art.

## Triumphs of Modern Surgery.

Wonderful things are done for the hu-  
man body by surgery. Organs are taken  
out and scraped and polished and put  
back, or they may be removed entirely;  
bones are spliced; pipes take the place of  
diseased sections of veins, antiseptic  
dressings are applied to wounds, bruises  
burns and like injuries before inflamma-  
tion sets in, which causes them to heal  
without maturation and in one-third the  
time required by the old treatment.  
Chamberlain's Pain Balm acts on this  
same principle. It is an antiseptic and  
when applied to such injuries, causes  
them to heal very quickly. It also al-  
lays the pain and soreness. Keep a bot-  
tle of Pain Balm in your home and it  
will save you time and money, not to  
mention the inconvenience and suffering  
which such injuries entail. For sale by  
Stone & Mercer.

## MOVING PICTURES.

They Were Used by the Egyptians  
Long Centuries Ago.

There is reason to suppose that the  
terrible scenes by which initiates into  
the ancient Egyptian mysteries were  
impressed were some sort of moving  
pictures, although how they were pro-  
duced before the invention of glass  
lenses can only be surmised.

From the fourteenth century onward  
such representations were almost as  
common, though not, of course, so per-  
fect, as they are nowadays. Chaucer  
mentions them as the "apparances  
which subtil treggours perform at  
feasts," the kind of shows which would  
appeal to the taste of the period famed  
for hunting, hawkng and jousting,  
which were represented. As lenses  
were known at this date these appear-  
ances were probably managed by some  
kind of rude magic lantern, although  
that in its modern form was not known  
until long afterward.

Whatever the apparatus was, its use  
must have been very widely spread,  
for such diverse witnesses as Ben-  
venuto Cellini and Sir John Mandev-  
ille testify to having seen its results.  
The latter has left it on record that he  
saw moving pictures at the court of  
the Great Khan in central Asia.

## For a Hundred Years

For a hundred years or more Witch  
Hazel has been recognized as a superior  
remedy, but it remained for E. C. DeWitt  
& Co., of Chicago, to discover how to  
combine the virtues of Witch Hazel with  
other antiseptics, in the form of a salve,  
DeWitt's Witch Hazel Salve is the best  
salve in the world for sores, cuts, burns,  
bruises and piles. The high standing  
of this salve has given rise to counter-  
feits, and the public is advised to look  
for the name "DeWitt" on the pack-  
age, and accept no other. Sold by  
Stone & Mercer.

of this salve has given rise to counter-  
feits, and the public is advised to look  
for the name "DeWitt" on the pack-  
age, and accept no other. Sold by  
Stone & Mercer.

For a Hundred Years  
Hazel has been recognized as a superior  
remedy, but it remained for E. C. DeWitt  
& Co., of Chicago, to discover how to  
combine the virtues of Witch Hazel with  
other antiseptics, in the form of a salve,  
DeWitt's Witch Hazel Salve is the best  
salve in the world for sores, cuts, burns,  
bruises and piles. The high standing  
of this salve has given rise to counter-  
feits, and the public is advised to look  
for the name "DeWitt" on the pack-  
age, and accept no other. Sold by  
Stone & Mercer.
